Learn about this dear friend that we call "fear". Why it is here, how does fear grow and what can you do in practical terms to make sure it stays in proper context in your life? Nothing spreads faster than fear except perhaps fire. Learn concrete strategies to identify fear, find out who it belongs to and how to deal with it in productive ways. THE ANTERNET

(15 hrs. Lessons & Meditations)

Amazingly, THE ANTERNET is not a guide, a planet, a collective or even a species. It is a place, a frequency, a trajectory in time and space. It surrounds all planets and has specific roles facilitating interplanetary and interspecies communication, creativity and travel. Become more oriented to key energetic paradigms that we will be using in the next few years.

Learn new energetic principles that will expand your intuition and ability to communicate beyond telepathy. Peak your scientific and energetic creativity by learning how we can use THE ANTERNET for exploration and travel to other dimensions, places and times.

This is the first time channeled information has been offered to the public from any other source of wisdom other than Grandmother. Lori says ... "I have been bridging between the known and unknown my entire career. Through continued shared awareness we can enjoy just how normal our expanded horizons can be!"
